

2002 STOCK USE AND GRAZING REGULATIONS

These area-specific regulations supplement the minimum impact regulations and guidelines. In the regulations "stock use" refers to travel and camping with stock (horses, mules, burros, or llamas) and grazing in designated forage areas. Areas "closed to grazing" are open to stock travel and camping with stock provided they remain confined and are given substitute feeds. Areas "closed to stock" are closed to all stock access. Meadows with an asterisk (*) are temporarily closed to grazing or otherwise restricted for the 2002 season to allow for restoration.
